line by Principals Gondris and Virden, and all of them reached the street in safety. The danger was too much for some of the girls and several were carried from the second story to the street. Heis and Rheinhardt reached the

AN EXCITING DEBATE ENSUES. The Late Mr. Weissinger Much Honored.

Vigorous Colioquy Engaged In by a Number of Different Senators One Speech on the Contested Sepatorial Sept-The Appropriation Hill.

Washington, March 11.—The crowds which filled the senate galleries yesterday in anticipation of an exciting Cuban debate were not disappointed. Two new phases of the subject made their appearance and each afforded a debate which aroused senators and spectators to a high stage of interest and excitement.

Mr. Lodge (Rep., Mass.) arose to a question of personal privilege and in vigorous words rebuked the Spanish minister, Senor Dupny de Louie, for his recent criticisms of senators. Senator Teller added his opinion that a repetition of the minister's action should be followed by his dismissal. Senators Gray and Fale maintained that senatorial privilege and prerogative should not be strained to close the mouth of tributes were many and exquisitely not press for my activite action.

The incident hardly closed when the

subject came up in another form. Mr. Hoar had asked that his resolution postponing the entire Cuban subject until April 6 go over another day. This aroused Mr. Sherman to an energetic and feeling protest. He declared that Mr. Hoar's resolution was a reflection on the committee on foreign relations, and was nn effort to shelve the Cuban resolutions after weeks of discussion and overwhelming votes in both houses. The two veteran senators, Sherman and Hoar, engaged in a vigorous colloquy.

Mr. Morgan and other senators were drawn into the personal conflict and for half an hom it raged, some times with deep earnestness, but more often with amusement caused by the energy of the white-haired participants. Mr. Sherman flually withdrew his objection and Mr. Hoar's resolution went over, but not before Mr. Hoar had made a brief. but telling speech against what he termed the meddling policy of congress

The latter items, however, went down before points of order. An attempt was made to rule out the southern subsidy also on a point of order, but Mr. Payne of New York overruled the point. The motion to strike out was defeated—93 to 116. The postoflice bill was not disposed of. During the morning hour a bill was passed making a year's "continuous residence" territory a prerequisite to obtaining a divorce in such territory.

New York, March 11 The World this morning says:

Two attaches of the Spanish legation in Washington were boasting recently. at the Metropolitan clinic in that city of the military and naval resources or heir country, and one made the remark that a Spanish freet could take New \ (m 10 days.

As ruled at this indiscreet declaration. a companion husbed him no, and they portly left the clubbonse. Enough h.cl. been said, however, to excite suspicion, and a quiet investigation revealed the wase of the Spaniard's confidence.

It was discovered that Captain Carles De far Casa of the Spanish army, has need in New York for three months. He has avoided the hotels and clubs and has taken a flat in 114th street. From this retreat it is said, he has made many visits to points of interest around. New Fork and it is learned collected an innense amount of valuable information. concering the fortifications at Willets Point, Sandy Hock and other places within 40 or 50 miles of the city.

It is believed that he enriched his collection with numerous drawings and plactographs, agenrately locating the tos of the mines which will aid in do tending the narbor. Of course, a great amount of information regarding New York harbor can be obtained by anyone, especially in relation to its channels and approaches, but the military informaion is jealously gnarded.

Recently Captain De La Casa's room as broken into and some of his value. ce papers are said to be missing to be aptain does not know whether it was he work of an ordinary every day burglar or of a United States secret services gent. The Spaniards think the administration may have hipped Captain Do La Casa in the bud.

Captain de la Casa was seen at his come last night: "The thief did not take any papers and I have received no cpost from the potice.

'It is true that I am the military at ache to the Spanish legation, but that loes not cause me to suspect that the thief was other than an ordinary burg lar. It is a singular fact, that he delile crately overlooked valuable property within his reach, but if he was after papers he did not get any.

"My work here is simply like that of ther military attuches, to go about complace to place inspecting the difterent military posts with a view of aiscovering any improvements which may be serviceable to us. Then I report to the minister of war in Spain. I have isited Baltimore, St. Paul and other places. I have a letter of introduction from the secretary of war.

"Do be a mean that you take plans and notes; was asked.

"Yes," said the captain. "Does the secretary's letter cover that

ground?" said the reporter. It gives me the privilege of making deservations. I am not an engineer, but an officer of artillery. I shall return to Washington tomorrow."

An hear after the reporter left Capain De La Casa's house a friend of his elephoned this statement to The World:

"Captain De La Casa wishes it to be understood beyond doubt that his visits to the different fortifications were connected solely with matters of ordinance and that he has never taken a plan of my fortification or inspected any harbor. The only plans he ever had were those given him by the secretary of war letails of ordnance and the like. His deject was to suggest improvements in the system at home.

GENERAL LAFAYETTE.

Captain Jacob Outten Saw the Distinguished Frenchman.

Editor Bulletin: Dr. A. H. Wall published a piece stating that he saw General Lafayette when he visited the States in 1821. I can also say that I did too. I was only five years old; born March 15, 1819. Captain Jacob Outten can say the same (born in 1815). The event made a vivid inspression on my youthful mlud. When he landed at our city, John Armstrong, a wealthy mercicant, sent earpets down to the grade for cend the steps of the hotel. Captain James Byers, of the Maysville infantry, was his escort. John Gibson, the uncle of our John Gibson, was Miss Bessle Hurd, of Newport, is visiting James one of the drummers. He was undoubtedly and deservedly shown more honors than any one who ever visited our city. He was accompanied by a son and distinguished nobleman of France. The perils of the ocean, 3,000 mlies wide, was crossed to assist an infant republic of the western icenisphere to gain her liberty and independence. All honor to Marquis Lafayette and to h's posterity. May the biessings of the Lord at tend them through all time.

About fifteen years atter, John Quincy Adams dedicated the Observatory at Cincinnati. I was one of his hearers. A committee of citizens was appointed to go and invite him to speak here. He came and was bonored by the entire city who turned out to hear the "old man eloquent." The great and immortal Henry Clay, "who would rather be right than President," (all honor to his name) often have I heard his eloquence. Daniel Webster, none like him; his volce has saluted my ears. Adams, Clay and Webster were the greatest statesmen who ever llved. Yours, CHARLES PHISTER.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrup of Figs, prompt-ly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrnp Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrnp of Figs stands highest and is most largely used and gives most general satisfaction.
